

ACCEDE

THE MOLD IS GREATER THAN THE SUM OF ITS PARTS®

Our Mission is simple: mold building excellence. We accomplish this by integrating our employees' skills, experience, and technical capabilities within the robust framework of our quality management system.

Est. 1981

OUR PASSION IS YOUR ADVANTAGE

For more than 40 years, Accede Mold & Tool has focused on you, the customer, with end-to-end excellence in Project Management, Engineering, Manufacturing, and Moldmaking. We have blended cutting-edge technology with proven mold-building practices to implement innovative mold solutions globally. We continue to push limits by taking on the most challenging projects, keeping us at the forefront of the industry.

INDUSTRY INNOVATION: ACCEDE provides cutting-edge solutions for a multitude of industries. What is the common thread? The complex. ACCEDE's innovative minds have provided precision pilot and production value-added mold solutions to our customers with unsurpassed quality and service.

SUPERIOR SERVICE: What does that mean to you? At Accede it means having a dedicated team that values the relationship with our customers. You can count on us for full-service support, including pre-contract and post-delivery.

TOOLING EXPERTISE: Quality and customer satisfaction have always been our primary objectives. We take pride in our craftsmanship by offering our customers the latest in automation and servo solutions, pilot/developmental tooling, high cavitation, unscrewing, multi-shot as traditional rotary, lift and rotate, and in-mold rotary, in-mold close, stack, rotating cube, turn-key, and other design platforms.

ACCEDE

OUR PEOPLE ARE OUR GREATEST ASSET

We are a family-owned company where traditional family values have uniquely shaped our culture. Honesty, integrity, kindness, and a strong work ethic make up the fabric of who we are, and employees and customers are cherished as family.

Yes, our moldmaking excellence sets us apart, but equal to that is our employees. We have a sense of unity and enthusiasm for our jobs. We take pride in our part in bringing meaningful products to market. Teamwork is essential because our bond has proven to promote strength and reliability. We collaborate to overcome challenges and identify the most efficient and effective solutions.
