

Uniting Talent
with Opportunity

THE MOLD IS GREATER THAN THE SUM OF ITS PARTS®

Why Choose Us?

Yes, our moldmaking excellence sets us apart, but equal to that is our employees. There is a sense of unity and enthusiasm for the jobs we all do. We take pride in our part in bringing meaningful products to market.

Teamwork is essential because our bond has proven to promote strength and reliability. We work and collaborate in this way to overcome challenges and best identify efficient and effective solutions.

Experience Opportunities

We provide numerous opportunities for ongoing growth and development. Our leadership encourages and promotes continuous improvement through industry conferences, classes, and webinars. We encourage a curious mindset and lifelong learning.

Company Culture

We are a family-owned company where traditional family values have uniquely shaped our culture. Honesty, integrity, kindness, and a strong work ethic make up the fabric of who we are, and employees and customers are cherished as family.

About Our Company

Accede Mold & Tool specializes in complex and precision state-of-the-art plastic injection moldmaking for the medical, consumer-packaging, industrial, and automotive industries - and more.

Our innovative mold concepts, extensive manufacturing experience, and full-service global support sets us apart from all other mold builders, foreign or domestic.

- ✓ We are obsessed with quality.
- ✓ We take pride in our craftsmanship.
- ✓ We are committed to service excellence.
- ✓ We have a legacy of success as an industry leader.

Our mission

Our mission is simple: mold building excellence. We accomplish this by integrating our employees' skills, experience, and technical capabilities within the robust framework of our quality management system.

Our vision

Our vision is to consistently provide solutions for each phase of a program, from research and development to complete turn-key system integration solutions, and guarantee 100% satisfaction for our customers.

Our Experience

For more than 40-years, we have blended cutting-edge technology with proven mold building practices to implement innovative mold solutions globally. We continue to push limits by taking on the most challenging projects, keeping us at the forefront of the industry.

Career Opportunities

As a small business, Accede Mold & Tool offers a dynamic work environment where you are only limited by your own drive, self-motivation, and ambition.

01. Manufacturing

Manufacturing is comprised of specialty departments including CNC Milling and Turning, Sinking and Wire EDM, Grinding, Polishing, and Quality Control which are all staffed by detail-orientated, highly competent technicians. Our mold makers are project leaders throughout construction, ultimately responsible for the quality and performance of their mold. Our mold makers also serve as mentors to our apprentice mold makers, ensuring the sustainability of our trade and our legacy of excellence.

02. Engineering

Our engineering department is comprised of design engineers, program engineers, and manufacturing engineers. The primary objective of all of these roles is to ensure our customers' needs are understood and met through the design, manufacture, validation, and factory acceptance of their world-class plastic injection molds while providing customer service and customer support second to none. Further, our engineering team constantly scans the market to monitor, vet, and embrace emerging technology as appropriate.

03. Support

Our mold sampling lab ensures our molds are production-ready. Our supply chain team ensures we have the materials and components necessary to build and deliver a world-class injection mold. Our front office ensures that the business operates smoothly and that our quality management system processes and records effectively. Our sales and marketing team works alongside engineering to ensure we're continuously collecting feedback from our customers and the market to improve our products and services to meet and exceed client expectations.
